

Avida announces that the conditions for the early redemption of its existing tier 2 bonds have been fulfilled

Avida Finans AB (publ) ("**Avida**" or the "**Company**") announced on 3 October 2023 that it intends to redeem in full all of its outstanding tier 2 bonds with ISIN SE0010100883 (the "**Bonds**" and "**Early Redemption**").

The Early Redemption was conditional upon the successful issuance and settlement of new tier 2 bonds (the "**New Bonds**"). The issuance and settlement of the New Bonds have now occurred and the conditions for the Early Redemption have therefore been fulfilled. The Early Redemption is therefore no longer conditional and will consequently occur on 9 November 2023. The redemption price together with accrued but unpaid interest up to (and including) 9 November 2023 will be paid to each investor who is registered as owner of Bonds in the debt register maintained by Euroclear Sweden AB on 2 November 2023.

More information regarding the Early Redemption can be found in the Company's press release published on 3 October 2023.
